September 23, 2011

TO WHOM IT MAY CONCERN

This is to certify that we had procured 16 Aircosavers – power savers for air conditioners from M/s. Ecopower Pvt. Ltd. (Mumbai) in the month of December 2010 for one of our branch on which we are getting power saving of approx. 18% on air conditioning load. After detailed observation on the functioning and savings we ordered another 27 Aircosaver units in the month of July 2011 for our head office and we are getting a power saving of approx. 17% on our air conditioning load.

We hereby confirm that we are getting substantial power saving on our air conditioners and are considering installing Aircosavers at every branch.

Thanking you,

Yours faithfully,
MT Educare Limited
